

TNT-B

An Easier and Faster Way to Test and Tag

The TNT-B is a simple to use hand held Portable Appliance Tester designed to test the electrical safety of earthed and double insulated 240V AC rated appliances.

The TNT-B is also equipped to test IEC leads and extension leads, without requiring a separate adaptor to check for polarity.

Simple one button automatic testing makes this unit fast and easy to use.

A large, clear backlit LCD display shows digital reading of test results & provides prompts to the operator throughout the test sequence.

NCT (no Connection, No Test) sensing ensures appliances are correctly connected and switched ON before testing commences.

Features

◆ Fast & easy to use

◆ Portable Appliance Testing

- Insulation Test
- Earth Bond Test
- Polarity and Continuity Test
- NCNT (no connection, no test)
- Mains Supply Test
- Pass/Fail Indication plus actual test results displayed.
- Tests extension leads without requiring an extra adaptor.

Australian made to comply
with the requirements of

TNT- B Portable Appliance Tester

Included Accessories

TNT XL 350mm IEC lead
TNT EWL 2mtr earth alligator clip

Optional Accessories

TNT ES-500 earth braid 500mm

Specifications			
Tests Performed	Measurement Range	Test Voltage/ Current	Pass Level
Earthed Appliances (Class 1) Test			
Earth Bond Test	0.0 to 15Ω	200mA	<1Ω
Insulation Test	499k to 10MΩ	250/500V Selectable	>1MΩ
Double Insulated Appliances (Class 2) Test			
Insulation Test	499k to 10MΩ	250/500V Selectable	>1MΩ
Extension Lead/Power Board Test			
Insulation Test	499k to 10MΩ	250/500V Selectable	>1MΩ
Earth Bond Test	0.0 to 15Ω	200mA	<1Ω
Polarity Test			Pass/Fail
Mains Supply Test			
A-N-E	LED's		
Supply Voltage	230 to 265VAC		
Size/Weight	H202 x W175 x D70mm / 1KG
